Robert F. Anderson 1950 3

Western trip 1950 + Don Gamble

Started May 9, 1950 - 7 PM + drove  
with steadi to Paris, Tenn., 130 miles from  
Memphis. All night + most of Wed. the latter  
95 species of birds on 10th from Cincinnati to

Paris, Tenn., - wider road forms - Dickwood,  
Bl. Vulture, Swallow-tan. + first Yellow  
thr. Warbler. Rained most of time, very  
heavy at times in night but cleared late

Wed. + Wed. night. - weather quite warm,  
Leaves on trees out partly in Ohio in full  
in s. Kentucky. - beautiful. Epiphile  
monbergi & chats, grackles, Cuckoos  
Whens + Utensils etc Prairie warbler breeding  
on Ft. Knox Kentucky lowwood + brushy  
area, - small flocks now + then. Magpie  
full song - lots visited Bob-white when  
croaked. Southern mockingbirds from  
N Louisville down - singing. Collected 5  
specimens for Museum - 4 birds + a pupa?

Very red soil + loam strata in Kentucky +  
Tenn. - well worked in reports we  
saw - good stands of mid-size trees,  
much brush + hedges evident far more  
than N.Y. Number of Ricciaffs ala 3  
road 79 route north + south of Kentucky.

much rain to Memphis, intermittent  
very heavy at times

May 11, 1950 - Left from Mr. Paris, Tenn.  
+ drove to Memphis., rolling country,  
good stands of deciduous trees in general  
although there is much farmland + brush.  
Woodlands in general have quite dense +  
heavy undergrowth & ~~saplings~~, also vines.  
Some bushy small tree areas resemble areas  
on Catt. Ind. Res. at home, with Chats +  
White-eyed Vireos <sup>nesting</sup> here. 3 Turkey + 1 Black  
Vul. feeding on side road on small dead animal.  
~~W. W.~~ Redstarts, Mockingbirds, few Starlings  
& Cardinals regular along route. Midway +  
high ground growth wooded swamps along road  
(72) to Memphis - Crotonatory, Achelias, etc.

May 12 - left Memphis at 9 AM to into  
Ark., Egrets in fields (wet) + swampy  
areas. - quite flat country at first.  
a King Bird almost got hit by car  
as it ran ~~off~~ on road. Later 4 Black  
& young King  $\frac{3}{4}$  size with adult in  
marshy ditch swamp along road - ~~the~~

situation was common along road.

Shrikes rather numerous - 10 or so to Little Rock, Mockingbirds & Cardinals were less evident in flat area.

Large turtle in pond along road - 10", round shell & edge smooth, red mark behind each eye, yellow stripes below eye & on side of throat. Little Rock to Parsons 5.05 PM 5/12 - saw Little Blue Herons, Egrets, very dense swampy woods along one stretch, flat country but not so humid as Penn. Some Melangels - more rolling country, Richardson scattered along road. A Water Turkey in flight & also a Cooper's Hawk over swamp. Cloudy but no rain. Sun breaks thru now & then.

Good stands of pine & deciduous trees, much lower level woods & brush at this not so much dense tangle. A good stand of cypress on Little Rock.

into Rps <sup>end of road right - down</sup> - saw  
sideroad just <sup>north</sup> of Marshall. Chub-  
waders & possibly Goodwills? calling at 5  
dark. Onset 4:30 AM - cloudy & hazy

again, few birds en route - to Houston  
24 miles. Torrential rains met us way  
down, clearing as we hit Houston. Some  
of river bottoms are flooded. A small  
Dixie (white stripes narrow + a blue tail)  
at San Jacinto River - cypress swampy  
areas + Spanish moss.

May 14, - around Houston - Galveston  
bay area - very good. - with George Williams  
& son Steve: Houston, clean well kept city,  
drives rather poor but courteous, city is spread  
out quite a bit, very small museum great. Visit in  
small zoo. Visited various places around  
Bay (Kemah, etc.) 2 per car series across  
one arm of bay. Bird life abundant +  
interesting. Galveston Island - near Old I. D.  
somewhat - low trees + brush, flat marshy  
areas - pools + ponds here + there (72 species  
in day (160 m) Battledore Terns most gregarious  
in bay. Interesting birds were S. K. L. S.  
Spoonbills, Forster's, Royal, Gulf Gulls, Slaty-backed  
Terns, Wh.-e. Gulls, Ibises, Longbilled Dowitcher,  
curlews, Hutton's, Snowy-necked Terns, Reddish  
Egrets, Willets, Painted Buntings, Commoners,  
Jaegers - t. & f., Boat-tailed Grackles, White +

Brown Pelicans, a dead Booby (~~the good~~)  
Snowy & Am. Egrets, Little Blue Herons, Common  
Irons, Purple Gallinules etc.

On to Bay City (80 mi.) at 9 PM + overnight.  
near Hedges - in swampy depression - low  
willows, cattails + sand grass - Little Blue  
+ Am. Egrets commonest nesting, also  
Bl-cr. + yellow vr. N. Herons, 3 gr. Water  
Turkeys nests & Snowy Egret's nesting.  
area about 1 mile long by one half + mile wide  
14 Fulton's Tree Ducks, White Ibis - not  
found, no Spoonbills, Hawks, ranch  
plains + cattle, met a "cowboy" riding  
herd, saw 4 Caracaras nest or

Boy City & collected small turtle (various)  
Then flat, plain country to Llano  
& Anchoa - Aransas Refuge. Few  
yuccas, prickly pear cactus, small  
bowl cacti, ocotillas, few birds,  
Scissortails & Dickcissels scattered along  
Aransas - rather disjointed, saw  
1 Whooping Crane & lookout tower, a  
man observing, plenty of magpies, few  
ticks up to now, dead armadilloes  
& a live one on refuge, also snakes,  
probably Rattlers & a) Glass Snake, tail  
broken off. Vultures of both species  
all along route, some Black on  
refuge on road & on ground very close.  
Several White Pelicans, White Ibis,  
Redbreasts, Hallimail on refuge which is  
quite large 10 mi. by 30 at least (approximately)  
flat mostly, low scrub & live oaks &  
grassy areas, few woods, Gulf shore,  
rocks abut on south & Choke, Boy  
(marsh & shore) & cattle feeding on refuge  
& farm also, many deer & traps for them.  
Bouquets & wild turkeys tamed down  
here & there, ~~then~~ Cravat at the

range + on 15th to Rockport on Copano  
 Bay + overnite there. Out in PM  
 with Mrs. Hager (charming southern lady)  
 around bay + Rockport. Cuban brown pelican  
 L-S Curlew + <sup>(Sooty Shearwater)</sup> shorebirds

saw Reddish Egret, Glossy Ibis,  
 Tree ducks, Belding's Duck, Ternhead,  
 Grand Tern with a Wrasse, Gulls, a Horned  
 Toad - squirts blood out of its eyes.

There is a turner (island) along coast  
 here where Terpsichore nest, Saw Gulls etc.

old live oak at Goose Is. back on

Rockport, Texas (Lobster-b.) Hager,  
 several fresh-water ponds in area, - ducks,  
 herons + shorebirds + also gulls - warblers

etc. Out with Mrs. Hager in AM of  
 17th May. - 2 Roadrunners in trees, Inca  
 Poves, Ground Doves, Cassin's Grouse,  
 a possible Partridge, a Mexican Gull,  
 5 Pelicans, 20-30 Starlings, Herons +  
 Ibises, Swimming (stinging jelly-gates)  
 at beach, Rat Day, Tangled bridge  
 (inshore), Went out in rowboat +  
 saw almost certain Harriet Hawk, Nesting  
 nest & eggs, Roadrunner with food

in bill, caught 4 lizards (chammon?) which change colors - brown to green & gray to reddish & greenish. - they are common in and sandy areas. Small live oaks around Rockport, from 2 to 20' high - started because of wind & aridity, some cacti - prickly pear, huisache bushes, & few agaves & mesquite. Tomorrow out with Marine Biology boat into bay etc. (State High <sup>Coastal</sup> Comm.). very interesting, fishing smack KT took us out & let us off on ~~the~~ <sup>near</sup> Is. (And. Bird Island) Many nesting birds - Red-tail Eg. (2 with pose), Tous. Heron, Willets, L. Curlew, American Bittern, Curlew, Ibis (not many) Long-billed Curlew +, Ward's Heron 20' White Pelicans also took us to inner beach St. Georges Is.; waterfowl numerous 125+, Bull-b. Terns, Snowy Egrets, Coots etc., Shells (G. whelk), Long-billed Curlew. Warm sunny day large sand dunes.

On at 4:30 PM of 18<sup>th</sup> to just 18 mi. south of Kingville for night (very 2nd hand item) At 7 AM to Harlingen - rural country - scrub oak, mesquite bushes, little cacti - Cotton com + cottonwood south to Harlingen. got back Harlingen Hotel, Brown's Inn, Tomb, Blue Diamond, Bellanca

71

J. W. Dyer & Fullerton Oris. Posted in PM  
just E of Harlingen on Feb. 19, '32. + went  
25 mi. to Brownsville at 5:30 PM. Located  
Red Beimler (formerly from ~~the 300~~) who  
was running a roadside museum (reptiles +  
amphib., trying to interest people in preser-  
vation of flora + fauna of area but met  
with failure. He + his young wife are  
living just north of Brownsville in  
a little cabin + deforested area he built  
himself. He is living in the Korean  
manner, simplicity etc., is self-sustaining -  
cows + chickens. Has for seeing, of  
somewhat vague place for future. Left  
Mr. Brownsville + hiked a little along Pecos  
NW of town adding some new species to  
list. - Parusque, Hooded Oriole, Lucy + my.  
Cr. Tgc., 75% wh. Colias marsh, Sw. w. the  
Warbler, Red-eyed Vireo etc. Back to  
Harlingen by noon of 20th + writing  
notes in pm - resting. Wifey arrived  
at 6:40.

Flat valley floors  
Across around Brownsville + Harlingen

Lyos, have been extensively farmed + planted to cotton, maize, corn etc. leaving very little natural growth areas except between fields, along roads or waterways (reseros) - mesquite, and grasses + cacti. May 21, - 8 AM out with Dr. by Davis + wife around area - good list of new ones incl. *Cactus Wm*, *Bottae's sp.*, *Verreaux*, Tex. Nightcrows, *Sturnus M.* - t. b. Hawk, Black-ch. sp., Mex. Jacana - & Purple Gallinule in beautiful marshy water - *Acacia*, blooming. Flat grey-sandy, <sup>cactus + mesquites etc.</sup> Rio plain, Rio Botanical Woods. Low trees, vegetation along canals, mostly huisache + ash - elm, Park Clary, etc. Backwaters, irrigation ditches made w. of Rio & flood control

5/22 - into Mex. thru flat waste - semi and country - mesquite, guava etc. - gently rolling country later on, then Carrizo - Rio P. & then a Rio - a Parte - Rio Corra, small streams across Rio Lujan and on the side. To Victoria + you'll like - fair city, small.

On to Mante at 7 AM from Uclt. - (got this)

Ridgelines - many Quetzal, fan-tail, doves,  
flickers, kite etc. - tropic-coquet.

Mante - rather dirty town at the clean  
hotels. AM - 24<sup>th</sup> - To Morelos +

50 mi. west on R. d. Potrero Rd., - spectacular  
views, mts., windbreak - 4000', + back  
to El Salto falls 25 mi. W of Morelos -  
magnificent, <sup>175 miles</sup> Coll. Swift roosting  
behind falls 190' high, Blue Dog gone  
at bottom, 2 Macaws - Tropic, +  
Brown-throated Tot. singing - White

May 25 - El Salto falls - AM a number  
of small tropical birds. Chachalaca

2 Macaws yellow-e. Parrots

flock of Caracaras Hawk (seen?)

caught swift dove waterfall lost into

On to Morelos at noon + Valle at midafternoon  
Grey-t. Hawk, Crimson Coll. Grosbeak

Very hot as we hit lowland N of  
Valle, <sup>join the works</sup> grease ~~oil~~ leaking on  
right front wheel + leather fluid gone -  
parts in shells.

cows, horses, pigs, burros & jackasses on roads, often vultures feeding & perching by side of roads, Mex. villages - 1-story concrete & adobe, dusty, ~~sooty~~ floors, many cows feeding all over woodst & fields, El Salto Falls - wonderful, over 175 ft. high, deep pools in succession below it & smaller falls, water deep & blue & deep. Mexican generally friendly & smiling. Prices ridiculous low. gas 10¢ per gal., tourist court 1.20 cents, dinners - full 65-75¢. Hotel Waller dining room very nice atmosphere, Post & Beer very good & mild. May 26, 1958 - from Valles to El Sol Courts, 4 mi. N of Tamayobala & across Xilitla 6 mi. W of Cuitla River. Very high mts. nr. Xilitla - 4000 ft. - wood remnant of mt. by natives alone - fine views from here. Children tossed stones at cars nr. mts. Bamboo 30 ft trees along Rio Coy, swimming in river wonderful. May 27 - Dominguete town to Mex. City - 220 mi. - spectacular mts. & valleys - from sea level to 8300', 78 mi.

Fine rolling desert at 6500' in Juniper +  
cactus - pinyon pines, yucca, century plant etc.  
some very nice churches - very old., fine pine  
woods + scrub, from tropical to dry +  
semi arid sides of mountain. Mex. City - tragic  
situation terrible, hardly any stop signs or  
lights, few cars. May 28 - Sunday +  
Mex. City to - Guadalupe Jalapa  
up to 18300 ft in Rio Frio, pine woods,  
good views of Distancia + Coyoac. also  
El Monjeón + a volcanic crater lake  
nr. Xochimilco. Rocky + semi-arid +  
desert country, many <sup>old</sup> churches + missions  
along way espec. near Guadalupe (Chalco)  
Immaculate Conception Church in Guadalupe -  
exceptionally beautiful + ornate. Good  
number of high altitude new birds seen.  
Fine weather. Red warbler, Stellers  
Jay, Red-bell, Redstarts, House finches.  
Mexico City air not nice - everyone seems  
sent on going somewhere, in a hurry.  
Much cooler at 7500' on my plateau.  
Three heavy clouds in last 30 mi. descent  
to Jalapa 4500' about level + 95 mi. from

V. Cruz. Note how at hotel. Jalapa is typical Mex. city (small). Nothing seems noteworthy here. Most of town is on ~~slope~~<sup>foggy</sup>. May 29, Mon. from Jalapa to V. Cruz & the Gulf & back at V.C. Going down all the time to sea level thru semi and half-scrub & mesquite to eventually Gulf plain - more important growths & farming ~~area~~<sup>etc.</sup>. V. Cruz is not impressive, a typical seacoast town, 2 Mar- & Wolf birds on dock, small fishing boats, etc. Sandbars & clean sand beach. May 30 - To Alverado - 40 miles S along coast <sup>"foggy" seacoast town</sup>

Mon-o-Wos comm. - on long peninsula, slopes - Jacobs - onto Cordova & El Fortin & ritzy Hotel Playa Solinda at mte - swimming pool. Gradually ascending to 2000' ft - scrub semi arid to wetter woods, bigger trees around Cordova. Just made C. as we ran out of gas. Saw 3½ ft. bon

bit of car but also mrs. V. Cuy & may  
bought some 1st - 1<sup>st</sup> day m.

Alvarado. - also Iguan like one

May 31 - El Fortin to Puebla - most  
livid, most typical? Mex. town 150,000 people  
stayed at 300 year old hotel - Colonial  
from El Fortin up thru mountainous country, at  
first wet, tropical to semi-arid & arid desert  
near Tehuacan. Tornados curving (cobras) -  
climb (motor booted) after Orenda, Much of  
desert vegetation cut out & planted guads or  
orchards (dry) but good desert areas left.  
Growth was impudent as one approaches Puebla  
Horn blowing in Mex. cities is very annoying  
as they blow at seeming anything that  
moves. Fine old church at Tecamachal & also  
one at Puebla - huge bells

June 1, 1950 - Puebla to Zinappon 200+  
cents tow into high hills  
flat tire in rain m. Giant leaves at site. Dog  
bank cap stolen in Puebla. Nit. at Hotel  
Tudicin - Hotel makes attempt to look good  
but nothing after. Dust storm - slight m.  
Tehuacan or Mex. City. Visited pyramids &

Zuatzalacoste temple on Teotihuacan - 1000 ft  
 Pine woods at 10,000 ft at Rio Tzio - extremely  
 good barley - clouds coming out, tops at  
 these altitudes. No volcanoes at all.

June 2, 1950 - Zinacantan to Valle, rain  
 down step-wisely; curves to low areas, mts at Valles

June 3, 1950 - Valles to Linares

Rio Robinos - Bush tropical vegetation  
 to semi-arid hot land - Cacti - Linares.  
 Did not get up river to Sutton's "mountain"  
 mts at Linares - Canada Courts - hot day.  
 Dense intergrowth - Sabino. Rain  
 runs off land quickly, leaves tidal pools.

June 4, 1950 - Linares to Monterrey  
 Into Santa Catarina Canyon 25 mi. wsg Linares  
 rocky mountains - over hot land & later  
 orange groves & between mts. ridge -  
 rainy & pleasant fields & well kept  
 houses to Monterrey - very nice city -  
 clean. - Hotel Peninsula.

as flat as AM 5th. Gas stations do  
 not have hydraulic jacks & most do  
 not have any type

June 5, 1950 - Monterrey to Chiquique  
+ Saltillo - Chiquique mesa  
4500' fine view of M., cool. Saltillo-Typical  
Mst. city - 3000' & cool ~~valley~~ - nothing unusual  
about it. Rough rocky mts. to it on both sides.  
wonderful clear, cold air.

June 6, 1950 Saltillo to Diamond Pass

Beautiful clear, cool morning, W. in blossom  
+ bushes coloring.

June 6, 1950 - Saltillo to Diamond + pass.  
Rough road miles around then Antequera  
to pass + then did not go over - went  
back same way. Double climb into  
+ does not return till dark - below  
worried + Curno trail coming down  
mt. road, semi arid over - plains (many  
grain dogs) + sparing vegetated mts.

+ pine, red juniper, + at top spruce,  
dense + 40° slope - floor, sheer cliffs.

Moving area too, very dry washes +  
arroyos, no place where water would  
stop on road + they had to be cleared.

Large coyote watched me about 100 yds.

June 7, 1950 Saltillo 12 m. to Eagle Pass  
 at 7:30 pm - continue to the Com. for  
 Del Rio 11:30 pm. - At drive,  
 semi arid & arid into. to first desert  
 & occasional low hills. Tarantulas  
 crossing road, also medium size box  
 turtles. Large dead snake, saw grained edge.  
 customs man nice but tried to be thorough.  
 They were especially interested in birds, long  
 etc. Careful of first way. Gavins (near or  
 my common along road - next to telegraph pole)  
 More bush country near border.

June 8, 1950 - Del Rio to Marathon Tp.

June 9, 1950 - Marathon to Von Horn-Llano

W. Texas at first (nr. Del Rio) - semi  
 arid country, fair desert growth  
 but growing drier as you go west; some  
 small hills & later small, low mountains  
 but no trees of any size. In some places  
 there is hardly any grass or very little short &  
 dried, very few cattle, in some areas  
 very little growth of any kind. Hay  
 arroyos & washes, a little oats & corn  
 in irrigated areas nr. Llano Blanco. Small  
 dust storms on the & rain thunderstorms

at Marathon & in Sierra Blanca. Usual desert plants, ocotillo more common now, cactus, red roses. Potters enjoy at Cooks Ch. where we stayed.

June 10, 1950 - nr. Sierra Blanca to El Paso wide streets, part on hill, Juarez adjacent, many motels along main street in. 105° - rested most of June 10, - waspish, cloudy late

June 11, 1950 Sunday - mass + long ~~drive~~ most of day, parker visited small new International museum + Texas Western College museum.

trying to escape heat. Tire valve cone trouble night near - mixed cones + looks okay. Few birds except Sparrows + House Finches in El Paso.

June 12, 1950 - Mon. - <sup>met at park outside city</sup> fair weather for 3 day shot. Many people (70%) in El Paso are Mexicans. Driving is better + traffic well handled.

June 12, 1950 - Mon. 5 pm from El Paso to Las Cruces N.M. + W to within 40 miles of Fort Davis, ~~SW~~ (SW) N.M. three located in valley of Rio Grande Northward - corn, wheat, higher trees + higher growth - irrigation Westward from Los Cruces, going once town.

going altitude into sandy desert, very little growth, catclaw low, few desert plants, found brown low grass, rugged rocky <sup>low</sup> mts. & hills at various points along route. Not planning the sandy, more ocotillo, & ~~guava~~. Eating places almost all called "cafes" instead of restaurants here in SW. May cars have circular (ice) air cooling systems on windows & evaporation canvas water bags hanging on bumpers.

June 13, 1950 Tues. - More or less to Tordley, N.M., Road first & then gradually climbing to over 8000' in the Cimarron Mts. (western) to Rustler's Park for mts. Very dry, sandy desert, yuccas, some ocotillo, creosote, a low area (wood) with higher mesquite, medium sized cottonwood, many more birds here. Up its mts. Then Cave Creek Canyon - medium sized oaks, many birds, to rugged rocky mts. (mesquite, scrub oak, agave) Went down several hundred feet into large cave on top of low mt. on way up - many bats, sticks & stalks. Formations, quarry rock. Up & over winding dirt road then magnificient pines to Rustler's Park, no light

many "dig" signs on N.M. highway as road dips  
to allow rain water run off. 23

red bryozoal, stately 90' yellow pines (Coronado  
National Forest) many new birds. Nite here  
on top - animal spine lyng? - turkey tracks <sup>100'</sup> ~~now~~ very dry  
June 14, 1950 Ruster's Cabin Chiricahua Mts.  
To Fire Lookout 2800' - Gargoyle peak. - late  
afternoon down Civery Canyon to Chiricahua  
Nat. Monument. - rock formations nice.  
Whip-poor-wills calling at dusk at Ruster's Cabin.  
Cool winds, magnificent view from fire lookout,  
much info from 4th tall will Pecos National  
Lookout. Nice desert thorn grows in Civery  
Canyon to lower oak woods & then to fields  
burnt brown - sun very hot, much reflection.  
Chiricahua mts. are in Coronado Nat. forest  
& are not very extensive. Also, desert sage  
rare in Ariz. - Dragoon Mts. have some  
some frost system! Nite in monument  
area.

June 15, 1950 ~~Mon.~~ <sup>Thurs.</sup> Chiricahua Mon. to  
Sugarpine spr. Valley to limestone to  
Saguaro Nat. Mon. on Tucson Ariz.  
into S. Ariz. V. - grassland - prairie, oases  
of cottonwoods & oak "islands" extending into  
valley from canyons. Got very warm, not a  
cloud in sky, fresh wind alleviates heat.

in this country. They haven't had rain since last fall. Over very arid hills (mining country to Tombstone, pop. 909 - lowest ever, best baked town of famous reputation & then down into desert - Saguaros & mts. Tallish white saguaro <sup>bare thorn</sup> for quite a while - an impressive ~~man~~ <sup>man</sup> a true conservationist & I wish there were more like him. He surely had the spirit, the right ideas. He is accomplishing much on the Monument.

June 16, 1950 - ~~Lat.~~ <sup>July</sup> Saguaros Nat. Mon.

To ~~south~~ Sabino Canyon to 30 mi. E of Yuma 105° - Tucson-like El Gordo, only a little rice - slight <sup>green</sup> dry stream bed in S. Canyon hot & quite arid land, lower as we approach Yuma. Desert in place beyond Yuma has been irrigated & it now looks like rich farmland.

June 17, 1950 - Lat. - thru Yuma & into Cactus.

~~on~~ thru Imperial Valley (irrigated & nice)

Then only desert, small bushes & <sup>low</sup> cactus

desert ~~area~~, & then our first out & range -

getting cooler & moister all the time - fine

wood grass, & grass & woods down Cañon slopes largely in cuts. Mr. Coconino above

Some animal seen in the first few days - lizard - ~~spotted~~  
horned lizard - gopher mtn. rabbit - jack & cottontail  
Peccary - white-tail deer - ground squirrel - Hair  
prairie dogs & gophers - bats - & common squirrel  
San Diego - about 4000' - rather worn, rocky

25

low scrub back. Bolder Eagle on large rock on  
side of another one. No rain in this area  
for quite a while. Rather arid valley - many  
rocks - fine houses. Large lake mirror - Wolfgang  
Escalante nice town, wide streets. Inspector at  
Customs border hardly looked at our <sup>4</sup> luggage  
(plants) as did Arizona inspector while  
other people whose baggage was being searched  
through soiled. Fine day <sup>R.S. - chihuahuan  
scrub & cactus  
July 1st to 4th</sup> June 18, 1950 Sun. - into Mr. San Diego long  
+ above Encinitas - rolling brushy country, wheat  
+ other crops, orange groves higher up.  
Can be quite cold, big coast speedway +  
little settlements all along - clouds over  
shore, clear as one goes up back country.  
I ground squirrel very common back of  
shore in hills. My nie house along shore  
not leaving back from it, enough gardens  
in hills 12 mi. above Encinitas.

June 19, 1950 <sup>Morn</sup> hills above Encinitas to  
Escondido + to Baja California - much  
vegetation - Miriel was about to leave for

days in auto. & left while Rose & Toms

June 20, 1950 - Encinitas & vicinity, also June  
21, - Wed. went to San Diego, looked at La Jolla,  
La Jolla - well to do residential area & south  
of city S.D. (across Grand Canyon) to Cos. & then  
Balboa City to see friend.

June 22, 1950 Thurs. - 23rd. Fri. 24th Sat.  
Encinitas - & area - Mission Bay, swimming  
Birding - And Society dinner - San Diego.

June 25, 1950 Sun. - to San Diego A.M. - Don's  
sister

26th, 27th Tues. - San Diego area - bay etc.  
June 28, 1950 - left Don's sister at S. Diego  
& went to Palm City. -- June 29, 1950 - S.

Baja California - a medium size city built  
spreading out, on hills above the excellent  
harbor, practically landlocked. The many makes  
this town, many installations & ships  
Calif. coast has been changed consid-  
erably - much dredging, June 29, 1950 - to  
Tijuana - & south 20 mi to Rosarito in

Baja Calif. - surprising - with new clean

June 30, 1950 - 2. P.M. to T.L.A. - with Mrs.  
& M. Keson - visited Zoo, Sea Lion Park, harbor,  
Carlsbad marsh, - ride at T.L.A. - a integrated  
city - o

- July 1, 1950 - Sat. - around L.A. with T. Raw, -  
 Forest Lawn Cem. Glendale, on Mt. Wilson,  
 Pasadena, Rose Bowl - Long Beach, swimming  
 at Cabrillo Beach - visit at L.A. - France and  
 grandmother. <sup>the</sup> Last L.A. for next day for Big Sur Canyon  
<sup>(alone)</sup> <sup>NF</sup>
- July 2, 1950 - L. Angeles to Bakersfield + W to  
 Morro Bay on coast 210 mi. S of L. France,  
 up to 4000' + then to over 1000' - vegetat 110°,  
 quite dry rolling hills, flat plain, not desert  
 but burnt brown grass low shrubs, vegetation  
 everywhere. W to Cisco Gables - gradually  
 cooler and then to Bay - delightful sun  
 Morro Rock, cool, sunny, hilly, trees.  

July 3, 1950 - Morro Bay - up coast to Monterey  
 + to 10 mi. S of San Francisco. - delightful  
 cool ride - three hills + coast range - redwoods  
 over 125' high in main valley, rocky  
 shore. - Bay at tiger site. + first offshore  
 in many places - from hills, green trees,  
 shady lanes, farms, many people  
 camping out along shore + in parks -  
 Morro Bay + Big Sur Redwood Pk. -  
 picturesque ride - Carmel - Monterey point  
 + Pacific Beach - city. - ~~Crosby~~ honest.

28

many Cypress trees at peninsula - Monterey.

July 4, 1950 San Francisco to Yosemite Park  
saw bridges + Alcatraz - etc. went over  
Oakland bridge - inland - San Joaquin Valley  
rolling hills - 95° up to Yosemite - magnificent  
views - pines 100' high. Alameda.

July 5, 1950 ~~Fri~~ Wed. - Yosemite Park - up to  
Glacier pt. - nice view of various falls +  
peaks - El Capitan, Half Dome, Cathedral spire,  
Sequoia tree - very large pines, bristlecone pines  
70-150' - pine ~~wood~~ forests for miles.  
~~no~~ <sup>just rain since top</sup> ~~anywhere~~ big tree - dead + buried  
too many people - coming out & swimming  
everywhere. Nit at 5000' (in Tioga Pass Rd.)

July 6, 1950 Thurs - up top - Tioga Pass, 9900'  
to Mono Lake etc. + N 40 mi. To 50 mi. S of  
L. Tahoe. - Beautiful pines - higher to tree  
line - very rocky, snow - Tuolumne Meadow  
snow on lee (sun) side of mts. - 12-13000'  
Clear, cold streams - down to Mono Lake -  
rocky, few trees, more arid - little bushes,  
Mono Lake - quite large - salt water at 6700'  
W thru semi arid mts., rocky (snow on higher  
ones), lush meadows (pt 395) (nat. forest)  
down slope of Walker River. Camp at mts.

Lower Ron

getting tired & tourists speeding thru beautiful areas, not seeing these worthwhile things 29  
up little stream valley. Ron + fed in warm bear + ate one squirrel down.

July 7, 1950 Trid. - 50 mi. so of Tooele to Tahoe + Carson City + E to Ely, Nev.

Saw nice fresh water lakes, Tahoe quite beautiful - snow capped mts. beautiful - a tourist mecca. More birds, with cubs + goslings places we went thru Nevada. More silver dollars. E of Carson City - rugged mts. scattered rolling arid valleys + hills, also sort of sage + grassland, few birds thru the area except in canyons + irrigated areas where growth is more abundant + there are few trees. Mts. in some places have pine st. but mostly they have very low scrub, some are located at elevations

July 8, 1950 Late m. Ely, Nev. to Salt Lake City - to Bear River Refuge - note typical rugged Nevada mts. + sparse growth - Prairie Falcons. - 50 mi. across Salt Desert - Bonneville race track + then gradually wetter country to Salt L. City. Picturesque fight mts. around city - clean wide streets - Mormon temple + gold

passed 2 new TVs - Salt Lake City  
 monument. N to Bridge & W to spend  
 night at Bear River Refuge - no glazis.  
July 9, 1950 Sun. around B. R. Refuge &  
 NE to Idaho - Bear ~~River~~<sup>John</sup>, Wyo. & into mts.  
 Alpine Wyo. in Targhee Nat. Forest - Grand  
 Canyon. Out of salt lake flats & low  
 fields N thru nice valley surrounded by  
 rugged mts. & then green low bush  
 covered hills, cold streams. Logan  
 Canyon - river - ice cold - went in  
 - refreshing - gradually flattening out into  
 above described hills. Then into Idaho  
 & Wyo. - regular mts., green, moist valley  
 snow on mts, forests of spruce, pine &  
 also aspens looking like birch (bark)  
 At mts up into Nat. Forest into  
 Grand Canyon - Snake River - day wide  
 fast clouds - soothed rocky & cloudy  
 1 day but cool.

July 10, - Mon. - Grand Canyon - Wyo.  
 To Jackson Hole - Grand Teton & Greenwater  
 for mts. Corp  
 Surprised again at one of people camping &  
 setting out by their cars on the road.

Heads out of gas <sup>W.W.</sup> into control down hill etc. 1st trip

Many new license plates & more Natives as we approached Yellowstone. Tetons - rugged snow covered mts. 10-13,000 - cloudy, rain in Jackson, cool in yellowstone - cooler than almost anywhere before - clearing by ridge - high mtns in. Saw 15 elk - all with large rocks, 20 Buffalo & in valley area in Jackson Hole. - A moose (female?) in woods. Pair of old eagles & young rugged scenic Grand Canyon of Snake River. Miles of spruce & fir trees Jackson mtn. & Yellowstone, Mont fields - sagebrush in places. Two trumpeters saw on just nr. elk range at Jackson Hole, saw Old Faithful geyser, shored up to hot springs water & saw all other springs & geysers in W & S parts of park. Castle geyser was geytering. Nite on w side of geyser. hot springs, at dusk - 3 big bull Buffalo came in near.

July 11, 1950 Yellowstone Park -

Spent the day visiting all geysers, hot springs, canyon of the Yellowstone, sheep & working in hot spring. Wolverine & black bear on roads, beautiful country, miles of

52

date of July 11, - in ~~the~~

~~Yellowstone Lake~~

it rained quite hard

for a short time - small stones

spruce & pine woods, a lot of medium growth  
trees though, Y. Canyon is spectacular  
& beautiful, 300 feet lower falls, petrified tree,  
bark a foot - light gray, various growth sq.  
& grain sizes. Many people fishing along  
streams & Yellowstone R., bad parts of day  
overcast on pinnacle - N entrance to Park, in  
Montana. Fishing Bridge over Yellowstone -  
lined with geysers & hot springs. Cut through snow  
covered mts. & fine spruce forests. Crossed snow  
at 9000', had left Wyo at 4 PM today  
at N entrance to Park inside Montana border.  
He headed toward Butte to visit ~~Montana~~  
& I headed east toward home <sup>cool in park</sup>.

July 12, 1950 Wyo. - Yellowstone Pk. East To  
Billings Wyo, 300 mi. - out of mts. 8500' -  
heavy frost on car, very cool - first snow &  
snow lined peaks to 4000' <sup>4000'</sup> level average across  
Wyo. - and hills & valleys - sage etc. & then  
moist valley top & over Big Horn mts. before  
& Sheridan - snow lined peaks 8500' - first  
agaves, rocky mts. - ~~poor~~ <sup>some</sup> rolling  
land on top of range & down across said hills

+ mostly moist valley - crops & vegetation but few trees., sage on slopes. - cool, delightful air all the way. Nite at Gillette, Wyo.  
 83 mi. <sup>W</sup> of S.D. border. Saw Big Hills statue + tourist attractions in Cody, Frontiers going well. Moose at Cabobba Falls (sandstone rock) just E of Yellowstone R. Entombed living salted fat tangent. Last Bunting song is unique + wonderful. no roads across Wyo except 2 grades (-) Roads pretty good in places but <sup>poor</sup> fair to poor in many remaining ones of some in Nev., Wyo + SE Idaho where many stretches are in poor shape. Tourists are one of most interesting parts of trip - ludicrous acts + total performances such as taking picture on statue of Cody riding his horses cyclized goat! Tourist poor driving + horn honking is quite irritating at times but am used to everything in that direction now. Nite at Gillette 2<sup>nd</sup>

July 13, 1950 <sup>Thurs.</sup> - Gillette Wyo. E into S. Dakota then Bl. Hills, Badlands + E to Mt. Mitchell Southern S.D. 150 mi. W of Sioux City

At first thru sagebrush & arid like, valley  
 continuing grass up to the Black Hills 6000' -  
 covered with medium small size pine trees  
 + bare rocky & open ground. Saw Gustavus  
 Mew's forest not as large as I had pictured -  
 down to 2-3000' - across S.D. - Badlands  
 - soft soil much eroded forming picturesque  
 & colorful formations, grassy in between,  
 few birds. Then the rolling hills  
 slightly less arid & greener valley -  
 less sage, more grass - area getting  
 more lush until beyond Kadlec farm property  
 green grassy hills & valley, practically  
 no ~~old~~ trees except now & then & changes  
 in low areas - mostly field birds. -  
 across Missouri R. - Trees & shrubs  
 appearing into narrow valley & on to Mr.  
 Mitchell 150 mi from Minn., Border, County  
 gradually loses its western prairie sods &  
 such & farming & dairy herds replace  
 grazing & arid land. Towns still retain  
 western - cattle etc. Tourist attraction  
 signs are a damn nuisance all across  
 this area. Drove 12 hrs. + 424 mi, today  
 tired.

July 14, 1950 Trd. 30 mi. W of Mitchell S.D.

E to Minn. & - most of way - rolling hills or nearly level - grass pastures, cattle, farming - corn etc. - few trees in SO but more as one goes E toward Minn. - small woodlots, generally medium or small trees & bushes / no extensive woods - extreme SE cor. of Minn. - Beautiful country, quite hilly also into mid west of La Crosse - few lakes (small) + ponds S - Minn. - Bl. ferns bushy. W. meadowlarks all the way to Wis. dairy, farming. No roads except a road to oak grove banks Pleasant country indeed. Rose at 11 hrs. ~~at this stage~~ - notorious rising - distance time 450 miles - generally good roads after SB & river stretches. Nite 25 mi E FalCrose

July 15, 1950 25 mi E of La Crosse SE to Chicago - Hwy + N+E to n. Ann Arbor, Mich. for nite. Pleasant rolling <sup>or mostly</sup> land farm land thru Wis., Illinois & E Tenn. Ind. & Mich. where there are no ~~to~~ cities. Few woods & none of any size, many trees thru valley & on hilltops but they mostly are not very large. Chicago is a big city

all right. Saw Doctor's Field, drove around town, downtown & along Lake Shore Rd. - some shooting, - like New York Harry Hudson Play., glad to get out of the area - much hunting - Gary it. smoke, etc. <sup>Drove 405 mi.</sup>

July 16, 1950 Sun. at Ann Arbor, mice E to Detroit & into Canada at last & along W shore L. Erie to Gordian Brown Ch., nr. Flint, Mich., 70-80 mi. E of Detroit - granite stopped at Miners Boundary but closed for summer, few ducks & geese visible on pond. Then to St. Peter Ntl. Pk. - a nice

 place but many people on weekend. Dense undergrowth, much stage water in winter area, cottages along both sides, but plenty of vegetation, cedar trees. Narrow beaches. To Gordian Ch. - also many people - ~~most of peninsula~~ <sup>most of peninsula</sup> section covered with medium growth woods, good undergrowth, narrow gravel road, narrow beaches. Cool lake <sup>long</sup> ~~long~~.

July 17, 1950 Mon. Gordian Ch. NE to London Ont., & SE to shore & E along L. Huron to Rock House Pt. granite. London typical Conn. city <sup>small</sup> act. 90,000 people - River Thames + all. Water hose connection on motor

rotted so regard it. Disconnected hoses as it developed a leak. It's good to see the shore again. Went in for a dig off Bondesu at 6 AM before Dept. Stop wind, nice waves.

July 18, 1956 Tues. Got home at - Eday shore to Crescent Beach & visited with Kelly's for afternoon & evening dinner. Home at 8 PM. This trip
